

# Top Reasons to Enroll your Child in French Immersion

- **Having French opens several doors in terms of job opportunities, travel and learning additional languages.**
- **French Immersion students gain additional cognitive and academic benefits that help them perform better on tasks requiring mental manipulation.**
- **Students with diverse learning abilities and needs do as well in French Immersion as they might in English programs.**
- **The K-2 curriculum is taught in French.**
- **The teacher & the administration will be there to help students and parents along the way.**
- **Bussing will be provided within Weyburn, Estevan & surrounding communities to the immersion schools so there is no extra stress put on parents.**
- **All students in K-2 who enroll will begin at the same level of French knowledge.**
- **The French Immersion program is a great way to challenge your child.**
- **It is easier to learn a 2nd language at an early age.**
- **Students who enroll in Immersion are with each other every step of the way until graduation and become like family.**
- **Students learn about a new culture.**
- **Small class sizes make it easier for students to concentrate & learn**

# Testimonials

**Taking French Immersion in school allowed me to open up my brain in a different way. I find it pretty cool how I can think in English but speak out loud in French all at once. It's a skill I will never forget and am grateful to have. My favourite part was the small classroom atmosphere where I made some of my best friends. My older sister was in the English track while my younger sister is in French Immersion. If available in the future, I hope to allow my kids to attend French immersion!**

**French Immersion at the elementary and high school level was definitely a great experience for me! I am finishing my Education degree and going to a fully francophone campus. The French Immersion program definitely prepared me for my post-secondary studies leading to an exciting career using my French. Starting in grade 2 can be problematic, but for me, I think it helped me in the long run. I had a strong English base and that helped me to associate French words with English words! I think that overall the French Immersion program was very helpful and gave me a super strong base in speaking, reading and writing in French.**
